

NetApp BlueXP: Managing Your Data Estate

Delivery: Instructor-led-training (ILT)

Duration: 1 day

Course Description

Discover the features of NetApp® BlueXP™ (formerly NetApp Cloud Manager) through video demonstrations and a laboratory environment to facilitate hands-on experience and learning. Familiarize yourself with the BlueXP user experience, and practice how to use BlueXP capabilities. Finally, explore BlueXP management and planning features and integrated services for cloud and on-premises storage resources.

Role

Administrator, architect, engineer, and operator

Prerequisites

Introduction to NetApp BlueXP

Objectives

This course focuses on enabling you to do the following:

- Define BlueXP and its features
- Explore the BlueXP canvas
- Explain the BlueXP Connector and how it enables BlueXP to manage resources
- Create working environments in BlueXP
- Configure backup and recovery features
- Create replication relationships
- Explore the enhanced features of BlueXP for data governance, data privacy, and subscription management
- Demonstrate how BlueXP enables data movement among storage systems on premises or in the cloud

Course Content

This course includes the following modules, lessons, and exercises:

Module	Lessons	Exercises
Module 1: Introduction to BlueXP	<ul style="list-style-type: none">• Define NetApp BlueXP and its features• Review BlueXP capabilities and services	<ul style="list-style-type: none">• Connecting to BlueXP
Module 2: BlueXP storage resources	<ul style="list-style-type: none">• The BlueXP canvas• Connectors• Working environments	<ul style="list-style-type: none">• Video: Deploying a BlueXP connector• Creating on-premises working environments
Module 3: BlueXP integrations to protect storage and data resources	<ul style="list-style-type: none">• BlueXP backup and recovery• Replication	<ul style="list-style-type: none">• Configuring Cloud Backup for your environment
Module 4: BlueXP governance	<ul style="list-style-type: none">• BlueXP classification• BlueXP digital wallet• BlueXP ransomware protection	<ul style="list-style-type: none">• Using BlueXP to protect data from a ransomware attack• Using BlueXP classification to achieve compliance
Module 5: BlueXP mobility services	<ul style="list-style-type: none">• BlueXP copy and sync• BlueXP tiering• BlueXP edge caching	<ul style="list-style-type: none">• Creating a cloud sync relationship
