

NETAPP LEARNING SERVICES

# Introduction to Flash Storage

Delivery: Web-based training (WBT)

Duration: 10 minutes

## Course Description

Learn about flash storage and the types of flash memory. Identify components of an SSD and explore the different storage systems in the NetApp® flash portfolio.

## Role

Administrator, engineer, architect, and operator

## Prerequisites

A foundational understanding of storage systems and storage networking

## Objectives

This course focuses on enabling you to do the following:

- Define flash storage and its benefits
- Differentiate the types of NAND flash memory
- Identify the key components of an SSD
- List the different types of SSD interfaces
- Outline the storage systems that constitute the NetApp flash portfolio

## Course Content

This course includes the following topics:

Topics	
<b>Introduction to flash storage media</b>	<ul style="list-style-type: none"><li>• Flash storage</li><li>• What is an SSD?</li><li>• Types of NAND flash memory</li><li>• SSD optimization</li><li>• Benefits of flash storage media</li></ul>
<b>Flash storage interfaces</b>	<ul style="list-style-type: none"><li>• Internal connectivity</li><li>• External connectivity</li></ul>
<b>NetApp flash storage portfolio</b>	<ul style="list-style-type: none"><li>• Flash storage: No one solution fits all</li><li>• How NetApp flash storage systems address customer challenges</li></ul>
