

NETAPP LEARNING SERVICES

# ONTAP Security and Compliance Fundamentals

Delivery: Web-based training (WBT)

Duration: 1 hour

## Course Description

In this course, you learn about NetApp® ONTAP® 9 data management software-integrated security and compliance features. You learn how to create a secure IT environment according to Zero Trust principals, such as “least privilege access” and “encrypt everything.” You also learn about the integrated data security and compliance features in ONTAP 9 software, which include data retention with NetApp SnapLock® compliance software and data integrity with autonomous ransomware protection.

## Role

Administrator, engineer, architect, and operator

## Prerequisites

- *ONTAP Cluster Fundamentals*
- *ONTAP NAS Fundamentals*

## Objectives

This course focuses on enabling you to do the following:

- Secure an ONTAP based storage system according to Zero Trust principles
- Apply least privilege access control to ONTAP administrators and users
- Secure data at rest
- Enforce compliance with data privacy and retention regulations
- Protect data from corruption by ransomware or malware

## Course Content

This course includes the following lessons:

### Lessons

- NetApp ONTAP storage security
- Least privilege access controls
- Encryption
- Retention
- Data integrity
